

# THE BLAIRMORE ENTERPRISE

VOL. XV., No. 84

BLAIRMORE, ALBERTA, THURSDAY, AUGUST 21, 1924.

\$2.00 PER ANNUM

## SHARPE-STOCKS

A very quiet wedding, was celebrated at the home of Mrs. John Stocks, 9839 106th Street, when her daughter, Bessie Mabel, became the bride of Mr. Donald Sharpe, son of Mr. and Mrs. Perry Alfred Sharpe, of Minneapolis. The ceremony was performed in an alcove prettily decorated with tall baskets filled with old-fashioned garden flowers. The Rev. Mr. Mitchell

performed the ceremony.—Edmonton Bulletin.

## ENNIS-VERQUIN

The marriage of Miss Jean Verquin to Mr. Arthur Ennis took place on Tuesday at the Union Parsonage, Rev. W. T. Young officiating. The young couple will reside in Blairmore.

## BLAIRMORE GRADE VIII PASSES

The following students in Blairmore passed successfully the Grade VIII examinations:

Theresa Aschacher.  
Julia Amatto.  
Thomas Norman Anderson.  
Charles Brown.  
Jack Barnack.  
Leah Bouthillier.  
George Christopher.  
Reany Dawson.  
Mervyn Evans.  
William Hamilton.  
Norma Joyce.  
Joseph Krkosky.  
Lillian Leary.  
Gordon Lewis.  
Thomas McKay.  
Leonard McDonald.  
Anna Pozzi.  
Alice Porter.  
Nora Picard.  
Peter Patterson.  
May Smith.  
Alice Smith.  
Peter Stewart.  
Annie Uhrin.

Reany Dawson and Percy Anderson did not write the examination because of ill health, and were recommended as they did very good work during the term. There were only four failures.

Teacher, Edna M. Fulton, Vice-Principal.

Evidently the amount of relief funds coming from across the line is based, not so much upon the needs of the miners as the amount of credit the merchants can hand out.

Drumheller's tax rate, municipal and school, for the year 1924, has been set at eighty mills. Blairmore's tax rate, including the two-mill supplementary tax, is only forty mills.

## MEDICINE HAT WINS FROM BLAIRMORE JUNIORS

The Blairmore Junior Baseball team lost out in their championship games with Medicine Hat last week, but this reflects no discredit on the boys, as they played great ball at all games, only the superior class of ball put up by the Medicine Hat boys proved too much for the locals.

Medicine Hat has a first-class team and played ball such as is seldom seen in these parts and if they win the Alberta Championship they will be worthy title holders.

The scope of the series of four games was as follows: First game at Blairmore, Friday, 4 to 4; second game, Saturday, 13 to 4; first game at Medicine Hat, Monday, 18 to 2; second game, 7 to 1. Total score for the series, 42 to 11 in favor of Medicine Hat.

"Jollet" Houbregts pitched the 1st game for Blairmore and this was the best game of the series, the Blairmore boys worked like veterans and held the visitors nicely. Lund and Carter pitched the second game for the locals at home while Kiever opened the pitching at Medicine Hat but was relieved by "Jollet" who pitched sixteen innings of the two out of town games.

The Hat pitchers, two being used, were real ball throwers. In the first game here the visiting pitcher hung up a record of eighteen strike-outs, allowing only four hits. The second game here proved a reverse of the first one. The changing of the Blairmore pitcher and of the fielders seemed to have a muddling effect on the boys and they lost control of the game.

Blairmore line up was as follows: Rae, c; Rose, 3b; Johnson, ss; Houbregts, p; Pinkney, 1b; Hornquist, lf; Kemp, 2b; Lund, rf; Evans, cf; Carter, utility.

The Blairmore team will no doubt do better next year. Manager Pruden deserves great credit for the manner in which he has brought these boys on in only a short time.

## ANDERSON-SHIELDS

A very quiet wedding was solemnized in St. Stephen's church, Calgary, at high noon, Monday, August 11, the Rev. Canon James officiating, when Mr. Fred Anderson, of the Bank of Montreal, Medicine Hat, was united in marriage to Mrs. Tressa Shields, of Andover, N. B. The bride, who wore a charming grey georgette gown over mauve, with a grey and mauve hat and carried a bouquet of mauve sweet peas and bridal roses, was given away by Mr. A. M. Shields, of Virden, Man., while Mr. W. A. Shields acted as best man. Mrs. W. A. Shields was matron of honor. After the ceremony a delicious buffet luncheon was served at the home of Mr. W. A. Shields, Connaught apartments. Mrs. Shields was a former resident of High River as the wife of the late Capt. Shields of the High River Aerodrome, who lost his life in an aeroplane accident here. She was well and popularly known in the town and has been residing in Coleman for the past two years.—High River Times.

## DEGROOTE-UNDER

(Crowded out of last issue)  
A pretty wedding was solemnized at Waterton Lakes on August the 8th, when Miss Bessie Under, of Blairmore, became the wife of Zachariah Degroote, of Lethbridge.

The bride is fairly well known in Southern Alberta, having for over twenty-five years been a waitress in a large hotel at Manyberries. The groom is also very popular, having been a bootlegger during the prohibition period.  
The young couple will reside in Lethbridge.

## BLAIRMORE GOLF CLUB

A match against the Fernie Club, at Fernie, was played this week end and resulted in a win for Blairmore, by 14 points to 5.

Blairmore—D. G. Mackenzie 1, J. B. Wilson 1, M. G. Rhynas 0, G. A. Passmore 0, E. Barrett 1, G. L. Stevens 1, A. J. Kelly 1, W. W. Scott 1, L. P. Robert 1, J. H. Farmer 1, W. Bird 1, W. Goddard 1, D. Martin 1, C. Emmerson 1, V. J. Hilling 1, F. J. Smith 0, M. H. Congdon 0, J. R. Smith 0, C. Devine 1—Total 14.

Fernie—A. Watson 0, H. Haynes 0, S. Herchmer 1, J. Irvine 1, N. Sud-daby 0, G. Wood 0, A. B. Sanborne 0, J. Wallace 0, W. Watmough 0, J. Corbett 0, A. Sanford 0, J. Murray 0—Total 5.

O. G. Appleyard 0, J. Shand 0, G. Johnston 0, S. Wilson 1, J. Diamond 1, Dr. Stewart 1, W. J. Murray 0—Total 5.

A putting and approaching competition for ladies and gentlemen, for prizes presented by Mrs. G. A. Vissac, will be held on Wednesday the 27th inst. Ladies' competition will commence at 2.30 and gentlemen at 3 p.m. Everybody should turn out for this competition.

Miss E. M. Fulton has been spending the latter part of her holidays with her sister, Mrs. Morrison, at Cowley, and will arrive Monday morning to re-enter upon her duties as teacher.

## A National Failing

Government departments at Ottawa and at the various Provincial capitals have for many years been engaged in conducting educational campaigns, and issuing instructive bulletins, pamphlets and posters, designed to encourage and help people in the conduct of their own particular enterprises and thereby promote not only their individual, but national progress and prosperity. Everybody is more or less familiar with work along these lines conducted by Departments of Agriculture and Health.

The Post Office Department at Ottawa has recently found it necessary to adopt similar methods. Not the least interesting and instructive among exhibits at this year's Summer Fair in the West were those of the Post Office Department revealing the astounding carelessness of people in addressing letters and packing parcels entrusted to the postal service. The mass of incomplete and incorrectly addressed mail matter, and carelessly packed parcels dumped into the post office every day is almost beyond belief.

People complain of heavy taxation, and clamour to have postal rates reduced to the old pro-war level, and at the same time, by their own gross carelessness, compel the Post Office Department to maintain an expensive Dead Letter Branch to correct their mistakes and protect them from losses they would otherwise sustain. The Dead Letter Office in our Western Province had to deal with over 100,000 carelessly addressed pieces of mail matter last year, and this is typical of all the Provinces. When it is realized that such carelessly addressed letter or carelessly packed parcels means far more trouble and expense in handling than a score or even a hundred correctly addressed letters or properly packed parcels, some idea will be gained of the expense thus incurred.

Nor is it in the Post Office Department alone that evidence accumulates showing the extent of this national failing of carelessness. Canada is notorious as having one of the heaviest fire losses of any country in the world, and by far the greater percentage of these fires is due to carelessness. It would be hard enough if the carelessness of the Canadian had been wholly his by the people responsible for them, but unfortunately the innocent suffer with the guilty, and people who themselves take every possible precaution against fire see their life's work swept away through the carelessness of others. Not only so, but all citizens, including those who exercise every care, are heavily taxed to maintain fire-fighting services and through the payment of unduly high premiums for insurance which fire insurance companies are forced to levy on all because of heavy fire losses brought about by the carelessness of the few.

It would seem that the time has arrived when some drastic measures will have to be adopted. Perhaps it would prove effective if, following every fire, no matter how small, an official investigation was conducted to establish responsibility for the fire, and when that responsibility was established to assess against the person or persons responsible the full cost of combating the fire and impose damages on them to compensate innocent parties sustaining loss through their carelessness or negligence.

Why, too, should the careful, hardworking farmer who industriously, year after year, strives to keep his land free from weeds, be compelled to sustain heavy losses because a neighboring landowner is careless and negligent and allows his land to become infested with weeds which spread in all directions bringing incalculable loss throughout a wide area? It is time all laws relating to noxious weeds were made more stringent and rigorously enforced.

Railway companies are doing their utmost to protect people in the event of crossings, but hardly a day passes but some unavoidable accident is recorded, the direct result of carelessness, negligence on the part of the individual, or the downright foolishness. Since the advent of the automobile and the engineer's hair has been turned grey and his nerves shattered through the rashness of car drivers dashing across tracks in front of an approaching train. Some people act as though railway crossing signs read: "Don't stop, don't look, don't think. This is a railway track. Dash full speed ahead."

A little careful attention to these things on the part of all people would result in enormous savings to the individual, the Government and the public generally, would prevent much suffering, and many life-long regrets. Careful people who do their full duty as citizens in these respects should not be called upon through heavy taxation to pay for the upkeep of elaborate services rendered necessary because of the carelessness of others. The responsible one should be made to pay the bills. Until they are so made to pay they will, apparently, continue in their careless ways, let it be repeated, has become one of our greatest national failings.

## Appropriate Punishment

## Alberta Oil

American Judges Had Good Idea Of Proper Sentence

A youth charged with throwing stones was sentenced by an American judge some time ago to throw so many tons of stone, while a policeman looked on. We forgot the exact number of tons, but it was a goodly number.

A judge in Los Angeles goes this sentence one better. A motorist brought before him for speeding was convicted and sentenced to copy out the traffic accident stories in every newspaper in the city for six months. They have several newspapers in Los Angeles and a high traffic accident rate. When this speed, dead has completed his sentence he will probably be able to keep his foot off the gas—Regina Leader.

## Postal Workers Get Stung

One of the drawbacks of being a postal worker is that live bees are sometimes shipped in insecure packages and escape to harass the sorters. This is the subject of a regulation published in a supplement to the Postal Guide, which instructs postmasters not to accept bees for shipment until after precaution has been taken against escape from their packages.

## Says He's Cave Man

Dave Marsh, 86, a gold prospector, claims to be the only real cave man in the world. For the last 25 years of his life he has lived in a cave in the Cripple Creek. He has his cave a chamber 30 feet long and too low to permit his standing erect—furnished as elaborately as a fashionable apartment.

The principality of Monaco is the smallest country in the world. Its area being only eight square miles.

Minard's Liniment Relieves Pain

## Making Good On Farm

Milwaukee Man Proves Wisdom of Employing Boys From Juvenile Court

The problem of what shall be done with the wayward boy has been solved in part in Wisconsin by D. W. Norris, Milwaukee philanthropist, who for several years has absorbed some of the output of the juvenile courts of Milwaukee and placed it on a 750-acre farm near Mukwonago, Wis.

At present there are sixty-seven boys on the Norris farm, varying in age from 8 to 16 years. Nearly seventy-five per cent of these come from "broken" homes, those where parents are divorced or separated, or where death has occurred among parents. Most of the boys are wayward or delinquent, the juvenile court, several being simply homeless lads.

Mr. Norris and his mother personally direct the operation of the farm, although they reside in their home in Milwaukee. A corps of assistants handles the details.

While all of the boys are given tasks that educate them in the care of purebred stock, in the raising of the crops and the marketing of farm products, including milk, butter, cheese, fruit and vegetables, the general tone of the place is to carry out the idea of a real home, getting away entirely from the idea of a correctional institution, which the farm is not, in the sense of state supervision. It provides recreation, discipline, education, health, home and maintenance, everything to make a normal American boy. There are school facilities on the property.

Although many of the boys come from the juvenile court, and are under little or no restraint, they seldom run away from the farm. A number of them have been taken abroad on long trips by the Norris family.

## THE DELICATE GIRL

What Mothers Should Do As Their Daughters Approach Womanhood

If growing girls are to become well-developed, healthy women, their health must be carefully guarded. Mothers should not ignore their unsettled moods or the various troubles that tell of approaching womanhood. It is an important time of life, whether the sufferer with the aching joints, the headache, backache, or other signs of strain are crying out for relief.

The delicate girl needs plenty of nourishment, plenty of sleep, and regular open-air exercise. But to the modern mother, these things are not enough. She must have new blood—and this she gets from Dr. Williams' Pink Pills. These pills increase the supply of new, red blood; they stimulate the appetite and restore the weary back and limbs; they restore health and charm, and bring to anaemic girls the rosy cheeks and bright eyes of strong, happy girlhood.

You can get these pills through any druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

## Strawberries in Northern Alberta

Grown Successfully Three Hundred Miles North of International Boundary

Successful strawberry culture three hundred miles north of the international boundary, has been proven by R. A. Gordon, of Edmonton. One hundred plants brought out from Ontario watered well, blossomed heavily and produced prolifically a well-flavored, colored fruit of fine flavor and firmness. Mr. Gordon has likewise had much success with fruit trees, cherry, wild plums and crab apples.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

## Moving Pictures On Mt. Robson

The first motion pictures ever obtained on Mount Robson, the highest peak in the Canadian Rockies, have been taken by Mrs. Audrey T. Shilpan, one of a party who made the ascent and descent of the mountain in the fastest time recorded. Although the base of the mountain was enveloped in a thick fog for four thousand feet, and the party was forced to for more than fifty feet ahead, the record time of fourteen hours was made for the climb.

## Many Birds Stronger Than Eagles

Although man has used the eagle as the symbol of strength, there are many species of seabirds that can play with a tempest that would drive the eagle to earth. Vultures in height and swiftness in endurance exceed the eagle, and, comparing bulk for bulk, the hummingbird is a much more wonderful flyer.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Even a woman who is not desirous of taking a walk in a way that will not suggest corns.

As for mending a widow's broken heart, there is no doubt that it can be repaired.

## Reading By Sound

Recently Patented German Device for Audible Reading

The blind may yet "hear" the printed page by means of a recently patented German device for making printers' ink and other pigments conduct electricity.

This might seem a comparatively simple matter. One need only put a conducting metal and into the powder with a suitable blower. But the lack of close contact between the particles of the metal obstructs the flow of the current, and the obstruction is increased by the oxidation of the surface of each particle. Even if the current succeeds in overcoming the resistance, the conductor is unduly heated—a fatal fault in the case of a blind. Since there are various reasons why it is desirable for industrial purposes to have a paint that will conduct electricity without melting, the problem has engaged the attention of many investigators.

It has recently been solved in Germany and patented by the firm of Moritz, who plan to use it in the printing industry. An important feature of the process is that by modifying it, paints and inks can be prepared which conduct electricity in varying degrees. It is proposed, therefore, to prepare strips of paper printed in symbols corresponding, for example, to the Morse dot-and-dash system.

Such printed strips can then be used by means of electrical apparatus to make and break contacts so as to sound a bell or buzzer so that a blind person familiar with telegraphy could literally hear the printers' ink talking to him.

## Says Color Problem Constitutes Menace

Entranglement in India Becoming Serious Says Sir Valentine Chirol

The solution of the color question there is to become the acid test of Occidental civilization, said Sir Valentine Chirol, former director of the foreign news department of The London Times, in the second of his lectures at the Institute of Politics at Milltown, Mass.

He reviewed racial and economic forces at work in India and added: "It is not by the sword that England can hope to rule India. What is to be feared at present is not a steady onslaught against English rule, but a steady entanglement of the best elements of India itself, without whose co-operation the whole scheme of reform may languish and perhaps perish, and the whole weight of India be thrown into the scales in favor of a final breach with Occidental civilization."

"It will be an evil day for the Occident if all the other political, social and economic problems with which it is faced in the Orient come to be merged into one comprehensive color problem. The weary back of history, come against the wealth of the different races and creeds of the otherwise disunited Orient."

## World's Strongest Boy Married

Sixteen-Year-Old Girl Claims To Be Britain's Strongest

Saxon Brown, known as "the strongest boy on earth," was married recently at Lewisham to Dorothy Dawes, who is claimed to be Britain's strongest.

The bride, who is only 16 years of age, and for five months has been a pupil of Brown, who is now 19.

After the ceremony the young couple went to a hospital fair at Cardiff to give their first show in a week's engagement.

By way of a preliminary, Brown tackled a motor van, and, gripping two of the spokes of the rear wheel, lifted it nine inches from the ground, and held it there for some minutes.

Feats performed later included crushing an apple to pulp in one hand, bending a bar of iron into the shape of a horseshoe, raising a five hundredweight anvil on his chest, and holding an iron chain with his teeth, and lifting four men on a board.

The bride performed feats with a 55-pound dumbbell and supported two men on a board.

## One of World's Oldest Women

Ageless and healthy, records indicate that "Indian Lady," a squaw living in the Yosemite Valley, is 120 years old. She is believed to be one of the oldest women in the world.

Lucy lives in a typical Indian tepee, but keeps out of sight of the tourists. She has difficulty in walking, but otherwise retains full possession of her faculties. She can remember clearly the events of 100 years ago. She was living in the valley when the first white man made the entrance and finds pleasure in relating the details of their occupation.

Holmesford Palace, Edinburgh, is so named from a monastery dedicated to the Holy Rood, or Cross, which originally occupied the site.

## More Education Needed

Chicago Speaker Draws Attention To Increasing Illiteracy In U.S.

Within fifty years American civilization will be a thing of the past unless speedy measures are taken to educate illiterates and aliens in this country.

This was the statement of Frank E. Hand, vice-chief of a fraternal society, in an address at Chicago. "The civilization of the Mayflower and the ideals of Washington and Lincoln," said Mr. Hand, "are being annihilated by a flood of ignorance and anti-American agitation."

There are 10,000,000 persons in this country who are classified as illiterate or near-illiterate. There are 14,000,000 foreign-born people in the United States, most of whom are alien in thought, speech and idealism. They are receding the race rapidly and should be taught the English language and the fundamentals on which this country was founded.

"Education of the foreign-born in the duties of citizenship should be an obligation of native Americans."

Reduced by asthma. The constant strain of asthma brings the patient to a dreadful state of hopeless exhaustion. Early use should be made of the famous Dr. J. D. Kellogg's Asthma Remedy, which more than any other acts quickly and surely on the air passages and brings blessed help and comfort. No home where asthma is present in the least degree should be without this great remedy.

## Less Wheat This Year

Northern Hemisphere Will Produce Less Wheat According to Estimate Of U.S. Department of Agriculture

From 14 to 13 per cent less wheat in the northern hemisphere will be produced this year in countries of the northern hemisphere, the United States Department of Agriculture announced on the basis of telegraphic reports and other information confirming early estimates to that effect. The production this year in the important producing countries, including the United States and Canada, and exclusive of Russia and China, is estimated at 2,992,576,000 bushels, compared with 2,272,901,000 bushels last year.

The cereal crop in Europe is less than last year with important reductions in countries consuming large quantities of hard wheats similar to our durum varieties, the department of agriculture stated. "The absence of an exportable surplus in North Africa further strengthens the market position of these wheats and the outlook from the point of view of United States producers is more favorable than last year."

In a bedroom built of glass in a London hospital, patients have been kept hermetically sealed up for five days in an atmosphere containing double the usual quantity of oxygen.

Any man who really understands women is too wise to boast to them of his wisdom.

Milk taken from the cow in the evening is better than milk taken in the morning.

## Coal Shipments To East

Experiment Will Not Be Made This Year Owing to Lack of Time

Coal shipments from Alberta to Ontario on the experimental basis proposed under a vote of Federal Government assistance will not be undertaken this year, after all. For lack of time in which to make the necessary arrangements, the scheme will now have to wait until another season.

That is the decision reached as an outcome of a conference by Premier Greenfield with Hon. Charles Stewart and Sir Henry Thornton when the whole situation was taken under review.

The Premier pointed out that the local Government has no information of any arrangement having been made at Ottawa to put into effect the plan of federal aid which was contemplated in the meaning of an appropriation of \$200,000 among the supplementary estimates, and that until the Dominion authorities had taken action along that line nothing could be done at this end to set the coal in motion.

Assistance from the Dominion Government, such as that provided for in the vote passed by Parliament to be conditional, said Mr. Stewart, upon the operators reducing their prices on the coal going east, the view at Ottawa being that the producers in Alberta must do something by way of co-operating in the case and must be willing to cut the price at the time if the Government is to help pay the cost of transportation.

## Shirring Up Trouble

Rudyard Kipling in naming the door to the steak and chop house at the British Empire Exhibition in London "Leathern Gate," seems to have stirred up in miniature the same kind of trouble that he has caused where he wrote Canada the too suggestive name, "Our Lady of the Snows."—New York Evening Post.

## Costly—Yes

Joe—Was your brother cool when he met the bear?  
Jim—Cool! Why he was so cool that he teeth chattered.

## ASTHMA AND HAY FEVER A GUARANTEED RELIEF

"I have arranged with all druggists here, as well as in all other towns of Canada, that every sufferer from Asthma, Hay Fever, Bronchitis, Asthma or difficult breathing in this city can try my treatment entirely at my risk. Dr. J. D. Kellogg's Asthma Remedy, the only one that does not afford you immediate relief, or if you do not find it the best remedy you have ever used, I am not at all to blame for others that I am not afraid to guarantee it will relieve instantaneously."—Druggists, anywhere handling the Asthma Remedy return your money if you say so. You are to be the sole judge and under this plan Dr. J. D. Kellogg's Asthma Remedy is a run in buying. Persons preferring to try it before buying will get a free sample.

Address R. Schiffman Co., Proprietors, 3745 N. Main, Los Angeles, Calif.

# ACUTE SHORTAGE OF BREAD GRAINS IS NOW PREDICTED

Ottawa.—An alarming shortage of bread grains is indicated in a summary issued by the international institute branch at the Department of Agriculture, which provided with official information from the statistics from 1924-25, out of 42 countries, 34 are below the receipts of complete official data made from reliable information on conditions and past periodical averages, a detailed forecast of the world total yield of bread grains for 1924-25.

A world average for 1924, the previous year of 378,000,000 bushels of wheat and 125,000,000 bushels of rye in the world.

Europe shares a little less than one half of the total shortage, according to the statistics, 100,000,000 bushels of wheat and 30,000,000 bushels of rye.

In the grain year just ended the total net exports amounted to the record figure of 815,000,000 bushels of wheat and 250,000,000 bushels of rye, of which 650,000,000 are accounted for by wheat and 100,000,000 by rye.

Canada's share of the world's wheat and rye exports for 1924-25, 600 bushels of wheat and 200 bushels of rye.

Contrary to earlier expectations, the summary concludes, the crop over into the new grain year is the chief exporting countries and indicates only 130,000,000 bushels.

This quantity, added to the exportable surplus estimated from the crop of the new grain year, makes probable an absolute surplus of only about 100,000,000 bushels, against 1,000,000,000 bushels in the previous year, and therefore seems to indicate an altogether inadequate carry over, August 1, 1925.

North America records 134,000,000 of the world's wheat and rye, the summary states, and yet this is the peacetime market on which Europe must depend until the yet uncertain new crops in the southern hemisphere are harvested.

If these do not repeat last year's record crops, the grain year 1924-25 will witness an extraordinary scarcity of wheat in the face of an exceptional demand, the summary concludes.

## Dutch Editors To Visit West

Prominent Representatives of Dutch Journalism to Make Tour of Investigation.

Montreal.—At the invitation of B. W. Beatty, President of the Canadian Pacific Railway, four prominent Dutch journalists and a representative of the Netherlands Emigration League will make a tour of the Canadian west to investigate conditions and make particular study of opportunities for Dutch settlers.

The party consists of M. G. Van Brusse, of the Nieuw Rotterdam Courant, Bureau Van Lanenweerde, representing the Catholic organ, the Tyd, F. C. Nossen, of the leading Conservative paper, and L. J. Van Nieuwenhuys, of the Nieuwland Emigration League.

It is expected that the party will be spent on the tour, the visitors stopping at Niagara Falls to view the power plants there; at Toronto and at Fort William and Port Arthur, where they will inspect elevators and terminals; and at Winnipeg, where they will meet Winnipeg newspaper men and visit the Grain Exchange, the Agricultural College and the Government Buildings.

The University of Saskatchewan and Experimental Farm will be visited by the journalists, and they will motor through the Saskatoon district, and after reaching Edmonton they will inspect the facilities offered by the University of Alberta and see the experimental farms at Orla and Lacombe. They will also travel through the Okanagan Valley.

## Seed and Relief

Federal and Provincial Governments To Aid Settlers in Dry Areas.

Winnipeg.—The Federal Government has agreed to divide with the Provincial Governments the expense of providing seed and relief for those settlers in Alberta and Saskatchewan who have suffered heavy losses through drought, according to work received by railway officials.

Special freight rates also will be granted settlers who intend moving to more favored localities. There are said to be several hundred settlers in Alberta requiring assistance.

Prince Wales Championships.

Vancouver.—Quernsey bulls from the ranch of the Prince of Wales in Alberta won all the premier medals at the exhibition held here last week, including the senior and junior bull championships and the grand reserve grand championships.

The R. P. ranch herd sire, "King of the Prairie," was the winner of the grand championship.

W. N. D. 1538.

## Canadians Are Labeled As Americans By Europeans

Ottawa.—Upon returning from a tour of inspection in Europe, Mrs. N. C. Smith, Canadian member of the International Council of Women's Health Committee, and convener of that committee for the Canadian National Council, reported the situation of "Americans" applied to Canadians in general.

She had found that British Americans and a small number of Canadians had been labeled as Americans to them abroad.

Mrs. Smith expressed the hope that the time would come when the world would realize Canada's nationality within the Empire and as a colony apart from its British neighbor, the United States.

## Developing New Wheat With Higher Yield

Types of Wheat at Alberta University.

Also Earlier in Contention.

Edmonton.—A sample of wheat almost ready to harvest is being shown here by A. R. Agar, West Edmonton. This is from a small plot of the new Marquis No. 222, which was developed and distributed by the University of Alberta.

Although this wheat is scarcely ripe, the experimental stage and only a very small plot is being shown, Mr. Agar is enthusiastic with regard to its prospects.

It is fully ten days ahead of the regular Marquis sown in the same field on the same day, and the kernels of the new wheat are bigger and more fully developed than those of the Marquis.

In addition to this it is stated that the heads of the new wheat contain the average a greater number of kernels than the Marquis.

And that the straw of the Marquis No. 222 remains green as the heads ripen. This fact will enable the kernels to fill to some extent while the grain is in stock.

## Declaration Of Scientists

Best Ever Held.

Toronto.—What was termed by Sir David Bruce, President of the organization, to be the most successful gathering in the history of the British Association for the Advancement of Science, closed at Conventions Hall before a distinguished assembly of scientists and mathematicians.

Sir David said the meeting was called to express the thanks of the association to the citizens of Toronto and Canada in general for the warmth of their welcome and for their magnificent hospitality and support.

The general sentiment of the members was more fully expressed in the form of a resolution which stated the gratitude of the association to the government of the Dominion and the province of Ontario, the city of Toronto, and to private donors, for their generous contributions to the expenses of the meetings.

Thanks were also returned in behalf of the members of the organization to the western provinces, which have contributed towards the cost of the western excursion of the visitors, to the members of the faculty and staff of the University of Toronto, and to the various institutions which assisted the association during the meeting.

"The real business of this meeting is now concluded," said Sir David, "but the importance of the gathering and the cordiality of the welcome starting with the moment of landing at Quebec, has been such that I feel it fitting to move from this chair the final resolution."

Sir Robert Falconer replied on behalf of the University.

## Want Uniform Divorce Law

Regina.—An effort will be made by the baristers of Saskatchewan to secure a uniform divorce law and practice for the province, according to J. E. Lusser, barrister, Prince Albert, who was a visitor in the city.

## Soviets Are Barred

London.—The Swiss Government, it is announced by the legation here, has issued an order forbidding citizens of the Russian Soviet to enter the Swiss republic.

## Seeing The Rockies In Comfort

New steel mountain observation car, Mount Gekko, used on the Continental Limited of the Canadian National Railways for the comfort and convenience of passengers wishing to view the scenic Rockies in comfort.

In the central portion of the car there is seating capacity for 36 persons and an additional 14 camp chairs are arranged at each open observation end of the car. The car is heated by a vapor heating system, and windows in the body of the car extend to the roof, allowing clear vision to passengers while sitting or standing. Comfortable, roomy seats have been provided, which are upholstered with Spanish Panama.

## New Fleet Commander

Sir Charles Madden.

who has just been appointed Admiral of the Fleet, a position which places him in command of the whole British navy.

## Chinese Flood Victims

Number Fifty Thousand.

Millions Homeless and Thousands of Victims Submerged.

Shanghai.—Millions have been rendered homeless and at least 50,000 persons have been drowned in devastating floods which are sweeping widespread areas of China, submerging vast areas of thousands of villages.

Thousands of refugees are pouring into Peking. It is impossible to get even an approximate estimate of the fatalities but 50,000 is said to be a conservative estimate.

Unusually devastating floods with accompanying widespread destruction of property, have been reported from various sections of China during the last few weeks. Late in July there were serious inundations in the provinces of Chihli and Hunan.

On Saturday further floods were reported from Kwangsi and Szechuan, but it was reported that the loss of life had been up until that time comparatively small.

## No Steps Taken To Secure Elevators

Alberta Wheat Pool Officials Not Yet Decided On Course Of Action.

Calgary.—No definite action was taken by the Board of Directors of the Alberta Wheat Pool at the recent meeting of the board with regard to securing elevator facilities for the pool. This was intimated by R. O. German, Secretary of the Pool, in a statement issued here.

The secretary refused to discuss the report that the pool was considering the building of elevators. "Nothing definite has taken place," he said, "and in the meantime the directors may decide some course of action depending, of course, on conditions."

## Make War On Hum Flies

Philadelphia.—Twenty destroyers of world-war type, some with German submarines to their credit, two mine sweepers and 800 motor craft patrols, are being "trained" up here in readiness for a campaign to sweep the rum fleet of the Atlantic.

When the hour comes for them to start out, they will establish an armed barrier along the coast against the illegal traffic in liquor, narcotics and aliens.

## Predicts Larger Crop

Toronto.—Sir Augustus Nanton, new president of the Dominion Bank, believes that the Canadian wheat crop this year will be nearer 300,000,000 bushels than 282,000,000, as estimated by the Dominion Bureau of Statistics. He also added that it has cost the western farmer less to plant and grow his crop this year and that he is going to get almost double the price.

## Jap Squadron Will Pay Visit To America

Victory "Dreadnaught" word has been received here that the Japanese training squadron, consisting of the battleships, Arima, and Arima, will visit "Hudson" coast.

The squadron will "leave" Japan early in December, following the annual fall maneuvers. "Prince Takamatsu, third son of the emperor, and younger brother of the Prince Regent, is aboard one of the battle cruisers, training for the post of admiral in succession to Prince Arima, uncle of the present Emperor.

## Attribute Trouble In Sudan To Conspiracy

White Flag Society Said To Be Aiming To Oust British.

London.—A dispatch from Cairo says the according to the local press the Egyptian Government has decided to recall to Egypt the railway station which caused the disturbances at London.

London newspapers make a big display of the according to the local press the Egyptian Government has decided to recall to Egypt the railway station which caused the disturbances at London.

Attributed persons in Egypt aiming to oust the British from the Sudan and establish Egyptian rule over it. Agitation in this end has been in progress for some months, the main organizers being the White Flag Society of Cairo.

It is recalled that the Egyptian Premier, Zaghal Pasha, held the chamber in June that report would have been complete and that the Sudan of Great Britain, and the British ministers announced in parliament that the British would not recognize the responsibility to the Sudan and the Sudanese.

The editorial writers, who have been having the present trouble will have serious consequences, possibly a possible regrettable delay in settling the Egyptian problem and even a conservative cancellation of the British negotiations with Zaghal Pasha.

Editorial opinion, strongly supports the Government in its Sudanese policy.

## Chinese Women Entering Trade

Thirty Taking Positions As Clerks In Peking Savings Bank.

Peking.—Thirty girl students have graduated from a "school of banking" established in Peking two years ago, and will be appointed to posts as clerks and officers in the Peking Women's Commercial and Savings Bank, says the Asiatic News Agency.

The banking school was established by a Mrs. Woo who was impressed by Chinese women attending efforts by Chinese women in Shanghai to found a bank. The Peking women's bank is still in embryo, but it is proposed to start it with \$1,000,000 and to be ready for business next spring.

In an address to the graduates Mrs. Woo stressed the point that Chinese women should interest themselves in business in order that they may not lag behind their western sisters. By cultivating an earning capacity, she said, educated girls may not be forced by their parents against their will.

Mrs. Hsiao Hsiao, wife of ex-premier Hsiao, is said to be a patroness of the new banking enterprise.

## NAVAL DEFENCE VITAL QUESTION FOR DOMINION

Halifax, N.S.—Canadians were told that the time would come when there would be no "O Canada" to sing, if the Dominion did not take measures for its naval defence, by Captain Henry W. Parker, C.B., senior officer of H.M.S. Republic, of the British special service squadron encircling the globe, who here addressed the New Day luncheon of the Rotary Club here.

The Captain's warning followed the singing of patriotic songs at the opening of the luncheon and after Major General Mackay, general officer commanding British fortress, had sounded a similar declaration.

"Captain Parker, of H.M.S. Republic, spoke of the navy generally. He likened the navy to the man with the big stick. Despite the protective quality of the League of Nations, he believed the navy still had its place.

The navy had been referred to as insurance of the Empire. "Your Minister of Defence has said," said Captain Parker, "that the navy was the best form of insurance. I wonder how many times he has said that before, and I wonder what he is going to do about it; that is not my business, it is yours."

The speaker then predicted that if something were not done the day would come when there would be no "O Canada" to sing. He emphasized the importance of constant survey and review of lines of communication between the various Dominions, and said that in case of war it was most important that convoys should pass in and out of Halifax and be given absolute protection. Captain Parker said that due to cancellation of the disarmament conference at Washington, Britain would not be able to send ships over to do this work. If the trouble was in the East, it would be many months before warships could reach the coast of this water, and perhaps never. All Dominions were to help with the problem, said Captain Parker, and the big question was what was to be done about it.

## PUBLIC SERVICE POSTS WAITING TO BE FILLED

Ottawa.—Four urgent positions in the public service Canada have been created by death in the past few months, and appointments to fill them are awaited with interest. There is the position of chief justice of the Supreme Court of Canada, the chairman of the Railway Commission, and two Quebec senators, one caused by the death some time ago of Senator Goulet and other by the death of Senator Bolduc.

The filling of these vacancies will have a bearing on the political situation pretty well understood. The position of chief justice of the Supreme Court is held by the Hon. J. R. Infante, who is a Quebec senator, which is a position of great importance, which is a position of great importance, which is a position of great importance.

The position of chairman of the Railway Commission is held by the Hon. J. R. Infante, who is a Quebec senator, which is a position of great importance, which is a position of great importance, which is a position of great importance.

Mrs. Hsiao Hsiao, wife of ex-premier Hsiao, is said to be a patroness of the new banking enterprise.

## Proposals Drafted By Opium Commission

Will Secure Accurate Figures Of Countries' Drug Output.

Geneva.—The League of Nations permanent opium commission has compromised on the divergent views of the various nations represented and issued a single convention for submission to the international opium convention in November. The measure will strengthen the Hague convention and obligate signatories to furnish yearly estimates of the quantities of opium and opiate products for medicinal and scientific purposes and for manufacturers and commerce. It would establish a central board to control international traffic and the drug evil.

## Will Enter Prince Locust Valley, N.Y.

Prince of Wales, who is soon to make a short visit to the U.S. will be the guest of the Piping Rock Polo Club at a dinner on Sept. 1. It is learned here. The officers of the board of governors of the club will be hosts to 120 guests, including members of the British embassy and the polo team, which is to play for the international trophy.

## Treasurer of Wheat Pool

Regina.—It is said that the account and office manager for the Northern Elevator, Winnipeg, has been appointed treasurer of the Saskatchewan wheat pool organization. It was announced that Mr. Regat has arrived here and is to start in on his new duties immediately. He has been with the Winnipeg company a number of years.

## B.C. Salmon Pack

Victoria, B.C.—British Columbia's salmon pack last year totalled 1,311,677 cases, against 1,290,326 cases in 1923. The gain in the 1923 pack is due to a substantial increase in the pink and chum salmon, 70 per cent of the total output, consisting of three two species.

## Isolate Scarlet Fever Germ

Chicago, Ill.—After 12 years of research work, Doctors George F. Dick and Charles H. Dick have isolated the bacillus long thought to have been the causative agent of scarlet fever. They have named it "Streptococcus Hemolyticus."

## YOUNG GIRLS AND DANCES

The "Mothers of Drumheller" appealed to the council of that town to bring about legislation to prevent girls under eighteen from attending dances. The council felt that better results could be realized by disciplinary action on the part of the mothers themselves. Commenting on the matter, however, the Drumheller Review remarks:

"It is well to remember that there was never any question of keeping young men from dances. Why pick on the girls? Only one way exists to make a dance hall as perfect a moral institution as a Sunday school, and that is to bring up the boys in a manly open way. Teach them to respect all women, whether it be their sisters, mothers, friends or the little girl who comes around once a week to wash the floors. That is the way to protect the young girls; teach the men respect. Thanks to our educational system, very few of the younger generation need be reminded that a woman is a lady no matter what she does or is as far as he is concerned. There is a lot of truth in the old nursery rhyme 'Girls are made of silk and lace and sweet pretty faces and boys of frogs and snails and puppy dogs' tails.' Till a boy is well out of his 'teens' he might well remember that a girl is just to be admired, wondered at and worshipped. If he follows this well meant advice he will not go far wrong.

"Every seventy-five years the Halley's comet comes around. Every forty years or so some new invention comes around to help mankind and every twenty years or so, some man or nation thinks he is strong enough to lick the rest of the world, while every five or six years well meaning people try and find some legislation to help the morals of the young. We are very much in favor of the right kind of legislation and believe that the dance halls used to be the front door to all kinds of sin. Nowadays in this enlightened Western Canada of ours the famous movie 'Honky-tonk' has lost a lot of the romance that William S. Hart and others have bestowed on it, and no one can say that the younger generation are not better off with the present decent, refined dancing places of our community. There is no doubt about it that it is a mistake to hold back youth. 'Youth will have its fling' and by preventing it from having its fling openly the chances are increased for it to enjoy it in a clandestine manner. No one can see any harm in a young man or girl going out in the evening to a dance and enjoying themselves. Why not? It is their prerogative. Then again why set a mark at 18? Who can tell a girl's age? Bobbed hair for all ages, short skirts for all ages, low heels for all ages make it a rather hard and at the same time dangerous practice to tell one of the fair sex her age and personally we would not like the job of being the official 'age keeper' at a dance. The chances are that after two or three dances you would have all the fair-sex in town in arms against you."

## IS IT PERSECUTION?

A case has come to our hearing, and while we did not have the privilege of hearing the evidence or the police side of the story, since it has become a common rumor it is worthy of mention for the public's benefit. A local hotelman has been caused to pay a penalty on the charge of "Permitting Drunkenness on His Licensed Premises." The circumstances as related are that a Coleman man

entered the premises in an intoxicated condition. He ordered a glass of beer, which he was refused. He did not get a chance to buy beer on the premises, but before the hotelman had time to move the drunken individual outside an A. P. F. officer entered and found the drunken man on the premises.

The proprietor stated on oath the facts that he DID NOT sell the man a drink and DID NOT have the opportunity of ejecting him, but living up to the extreme letter of the law a conviction was secured on the statement of the police officer.

We honestly believe that the new Act was never intended to persecute.

James Shan, of Calgary, is visiting here, with his sisters, Mrs. F. M. Thompson and Mrs. F. M. Pinsky.

Born, on Saturday, August 16th, to Mr. and Mrs. J. Bassano, a daughter. (To be continued)

President Sherman addressed a meeting of miners at Bellevue on Tuesday afternoon and at Coleman last night.

According to reports at time of going to press, the operators have announced that they have said their last word in negotiations with the miners.

Petty Officer Hickman, of R.M.S. Repulse, was drowned while canoeing in Halifax harbor. His lady friend, Miss Nora Shea, of Halifax, was drowned with him.

Dr. P. E. Doolittle has passed through the Rockies on his way by motor from Halifax to Vancouver. Dr. Doolittle is addressing the boards of trade enroute and may be persuaded to stop off here on his return trip.

A farewell party was given at the residence of Mr. and Mrs. W. Peacock, Carmanagay, last week, in honor of Mr. N. D. Smith, of the Bank of Commerce, who is being transferred to Coleman.

The big \$50,000 hotel residence at Pincher Creek has been sold to the Rev. Sisters of Kermaria for a general hospital, to be a branch of the St. Joseph's general hospital of Lewiston, Montana.

The marriage of James Harland, of the Yellow Pennant Bus Line, to Miss Christina, daughter of Mr. and Mrs. Donald McLennan, took place at Fernie on Friday last. Following the ceremony the young couple started out on a honeymoon trip through the western States, and on their return will reside in Blaimore.

On Monday next the teachers will have arrived to take up duties for the fall term. The staff will be as follows: D. M. J. Conway, principal; Mr. Thorntonsen, vice-principal; Miss E. M. Fulton, Miss V. J. Keith, Miss J. Galley, Miss Frances Gibeau, Miss B. Williams, Miss F. Palmer, Miss Janet Nicol, Miss M. E. Rae and Miss B. Douglas.

The Enterprise needs some more clean rags. When we say clean rags we do not mean buckles, strings, gunny sacks, pieces of old quilts, etc., but clean old cotton rags of a size sufficiently large to be used in wiping machinery and washing up presses, etc. We cannot use woollen rags. We have used up pretty well all our old clothes and are not in a position to do away with any more until the strike is over, so will pay 10 cents a pound for a small quantity.

A most enjoyable evening was held by the members of Crowview Reindeer Lodge on Thursday last, the occasion being a farewell social tendered to Mrs. D. A. Howe, who is leaving shortly for the Old Country. A very pleasant supper was put on by the committee in charge, following which Mrs. Howe was presented with a splendid handbag by the Sisters of the Lodge, through the Noble Grand, Mrs. T. S. Dawson, who made a few well chosen remarks. Mrs. Howe made a suitable reply, expressing her appreciation of the gift. The evening was afterwards devoted to singing and dancing, ending up with "Auld Lang Syne."

# **DID YOU EVER STOP TO THINK?**

THAT some people have inflated ideas of their own importance.

THAT they usually think their way of thinking is the only way, and if everybody won't think their way, they won't play.

THAT in most cases the city can move ahead without them.

THAT usually a city will progress faster if no attention is paid to those men. You cannot get work or constructive thought out of a swelled head.

THAT in some cities the people seem to be like a ship without a rudder. The city is full of heated argument and backbiting and discord. They can never get anywhere as long as that unhappy condition exists. They must have the proper attitude of harmony or they will fall by the wayside long before they reach the goal of progress.

THAT sometimes people expect

money to roll into their pockets without any effort on their part. They expect their city to grow without their lifting a helping hand. They get so narrow minded that they feel as though the home city owed them something and that prosperity should be theirs without effort. They feel that they should always be favored. THAT their outlook on life gets so colored with their own importance they will not even meet half-way any progressive movement.

THAT they want to sit and sulk and make themselves believe that the world owes them not only a living but also great wealth.

A lot of these people will have a rude awakening someday.

By E. R. Waite, Secretary, Shawnee, Okla., Board of Commerce.

# **BACK TO NORMALCY**

Prohibition has just received another severe blow, in Saskatchewan. It has been tried and found wanting. The West has definitely rejected it; and there seems to be considerable regret that it was ever tolerated. It is deplorable that the people had to go to the expense of a sad and painful experience to learn the obvious truth that prohibition is essentially vicious. As St. Bernard says, there is such a thing as scraping too hard to get the rust off a kettle. You may make a hole in the kettle and ruin it. This is the error of prohibitionists. They say if there were no drink there would be no drunkenness; but they overlooked the basic fact—if there were no rights there would be no abuse of rights. Our rights are the core; abuse of them is the cockle. And this is the question to be settled: Is the State to take away our rights lest we abuse them? Let us consider how the State stands to our rights. The rights of man and of the State are determined by nature. We have our rights not from the State, but from nature, before the State is born. Our rights, however, are limited by the fact that everyone else has the same rights. When I exercise my rights I must do so in such a way as not to interfere with the rights of others. And from this claim of right with right comes the birth of the State. The State exists to safeguard rights by punishing wrong-doers—that is, to facilitate the obtaining of rights. Hence it clearly follows that all State interference must rest on the necessity to safeguard someone's rights. Just laws are made and enforced always with this sanction that some persons—children, workmen, property owners—are not getting their rights. The justification for every law is invariably someone's rights. The State therefore is empowered to limit my rights, but never to take them away. This is the crucial point about prohibition. When a State starts to destroy its citizens' rights, it is like a father destroying his children's rights. The one action is just as essentially vicious as the other. Under prohibition, we see the State misusing its strength to attempt what it has no right to do—to destroy the very liberties it was born to safeguard. Without any spurious mandate from a hysterical majority of voters, the State has authority to limit my rights, because nature has actually limited them, by giving everyone else the same rights; and the State's proper function is to work for the protection of both my rights and my neighbor's. This is the State's only legitimate grounds for limiting the rights of individuals. Consequently when the State says: I am not going to safeguard your rights, but to destroy them, the ordinary red-blooded man answers at once: "You have no authority to do so. If your program is to abolish rights, then we are back to anarchy; and you are no longer a State, but one of the wrong-doers against whom we need the protection of a State." A State exists to defend rights; it may not destroy them, except in the case of criminals, who by their own conduct have forfeited their natural rights. Saskatchewan is the last western province to declare that its people are not criminals; and to wipe out the stain of penitentiary rule.—Northwest Reviewing of rights. Hence it clearly

Co-Author of "The Way to Health"  
"Globe's Best" "The Health Magazine"  
(Berkeley, Calif.)  
F. J. Goodrich, Publisher

(Continued.)  
"Perhaps the kindest interpretation for you, Karmack, was that you were being insouciant," he said. "You were buying an easy winter for the O'Malley's, and you were not going to get away in the spring. I was not going to let you, Seymour, you were a disgrace to the uniform you wore. You were not ever met with. You're a down-down grafting office-taker and to show you how I respect."

Instead of finishing his drink, the factor flashed out with his right hand a vicious upstroke. Seymour, seated either left or right, saw the factor develop a calm like quickness. He might have dodged and left the blow slide past; but he preferred to let the jaw of the factor. He needed, he felt, the sting of it to release for the derived punishment. He needed, he felt, the sting of it to release for the derived punishment. He needed, he felt, the sting of it to release for the derived punishment.

At once, the hard-looking man was on a furious battle of wits for this session, primitive battle. Science, if either of the two, was not the rough and tumble tactics of the outland, was fought. Blows were exchanged with a readiness that might have been beyond the scolding of the slide expert had there been any present. In the State of the North, the tens of dollars to see fights that were no little like this one as to seem payless tests. There was nothing about it. Not until Karmack saw the length on the tough beard face, was there the slightest breathing of space, unless you call breathing the faucled breaths between clenched teeth that sounded more like exhaust from wheezing locomotives.

Seymour stepped back to give the factor time and space to rise if fight still was left in him. Greed was his provocation, he insisted on fighting fair. That there was no rules for such an unblinking fight was not known to him. He couldn't hit a man who was down.

Karmack came up with a surprising show of strength, his eyes gleaming dangerously. One of these the sergeant closed with a body-ward reaching left. In turn, he was knocked back by the factor's counter. The sharp edge of this counter hit across the small of the back, a terrific blow.

The surge of pain seemed to set the hinges of the factor's mouth. At that vital moment, when he must have been hard put to keep his feet in any event, the factor hit him with a vicious kick on the shin. It was inevitable that Seymour go down, in falling, though, the factor's huge left foot forward, gaining a clutching grip on his opponent's torso, and carrying him down.

From the floor they rolled over and over like a couple of polar bears in deadly combat. First one on top and the other was on top and in position to jab. Claret splashes marked their irregular course. Fingers tangled and untangled, now the factor's black mop, then in the sergeant's brown one. The latter's uniform was tattered; the factor's trousers were shredded. Punishment, however, was well distributed and the battle, so far, a draw.

But this winter, Karmack had held close to his side and spent long hours with his lips; the factor had opened and seared his lungs with the vital air of the North. In the end, this difference which neither man knew as "wind condition" told its tale. The factor was rasping when the Mountie was still breathing with comparative ease. Longer and longer on each turn was the policeman holding the uppermost position.

Suddenly Karmack, underneath, ceased violent struggles. It seemed he had weakened. "Had 'nough," demanded Seymour. "Ready to tell the girl the truth?"

For answer, he felt the press of steel against his ribs. He realized in a flash that the factor had drawn a gun from some hairy secret, and that his seconds probably were numbered unless he rolled instantly out of range.

Holl he did just as the pistol growled. The bullet grazed a button from his official tunic, then thudded into the plasterboard that covered the log wall. Went second with a bone-breaking wrench, he twisted the scorpion from the trickster's fingers. Scrambling to his feet, he threw down upon his opponent, meaning to cover him, just as the front door of the store was thrown open.

**Strength Of The Martians**  
Interesting Speculation No. 46  
Conditions On The Planet Mars  
The vast interesting system of canals which encircle the planet Mars and which evidently serves to connect one part of the planet with another, has long been a subject of interest to the public. The late Professor Percival Lowell, who first proposed the existence of the canals, was a man of great vision and imagination. He believed that the canals were the work of a highly intelligent race of beings who had conquered the desert. It is believed that the water which flows in the canals is the only source of water on the planet. The water is said to be the only source of water on the planet. The water is said to be the only source of water on the planet.

"I am not a doctor, I am a man of the law," he said. "I am not a doctor, I am a man of the law."

"I am not a doctor, I am a man of the law," he said. "I am not a doctor, I am a man of the law."

"I am not a doctor, I am a man of the law," he said. "I am not a doctor, I am a man of the law."

"I am not a doctor, I am a man of the law," he said. "I am not a doctor, I am a man of the law."

"I am not a doctor, I am a man of the law," he said. "I am not a doctor, I am a man of the law."

"I am not a doctor, I am a man of the law," he said. "I am not a doctor, I am a man of the law."

"I am not a doctor, I am a man of the law," he said. "I am not a doctor, I am a man of the law."

"I am not a doctor, I am a man of the law," he said. "I am not a doctor, I am a man of the law."

## Local and General Items

"Did you left the door open?"

Mr. and Mrs. Fumigall, of Hillcrest, spent Sunday last at Michel.

Post's new line kilns are now turning out upwards of thirty barrels of high-grade lime daily.

Mrs. L. H. Putnam and Miss Douglas are spending this week end in Spokane, to return Sunday night.

Wilfred Carpenter, junior, and Pete Stefanno returned to Hillcrest Sunday, after a ten days' visit to Waterton Lakes.

Wilfred Carpenter, senior, Tony Cassagrande and Joe Fumigall have returned to Hillcrest from Waterton Lakes and report fishing excellent.

The Natural Gas Company has informed the Nanton town council of their intention to apply to the Public Utilities Commission for an increase in gas rate from 35 cents to 55 cents per thousand cubic feet.

Mr. K. P. Stuart, principal of the Coadale consolidated school, and Mr. J. Hutton, of the shoe hospital of Hutton & Perkins, Lethbridge, have returned home, after a pleasant holiday spent in this district.

The public are asking why it is that police are exercising greater vigilance over Blaimore than any other town in the Pass. Does it constitute a suggestion that beer licensees of Blaimore are irresponsible?

At last Friday night's meeting of the Greenhill Temple, Pythian Sisters, their past M.E.C., Mrs. Maud Wright, was presented with a beautiful engraved gold ring. Mrs. Wright leaves shortly on a visit to England.

The business of The Blaimore Trading Company was last week assigned for the benefit of creditors and is in the hands of the Canadian Credit Men's Trust Association. An inventory of stock has been taken and in all probability the assets are in excess of liabilities and the business may continue as heretofore.

Carl Smith, who has been acting as guide in the Waterton Park this season, paid Blaimore a visit this week. Mr. Smith has a bunch of well-trained saddle and pack horses for hire at the Lakes and is doing well. He hopes later to take some camping parties out in the hills after big game.

A meeting of miners was held in the Opera House on Tuesday night to hear a report from Sherman on what transpired at the joint conference in Calgary. Quite a few questions were put to Mr. Sherman during the meeting and advice was sought from Solicitor Putnam, who was the only "miner-lawyer" present. A vote of thanks remunerated Mr. Putnam for his intelligent views and advice.

An apprentice policeman was walking down the street the other day in uniform, with a pipe as long as himself in his generously large mouth. While passing a doorway, an automobile came out of the entrance, towing another car. The cub did not notice the low rope, with the result that the legs of him (the most important part) became entangled and the dear boy got sore—quite sore!

"Mac" McMurchy has returned to his post at the local depot, after a vacation spent at B. C. coast points.

Miss Ruby Howe returned home on Wednesday from a holiday of several weeks spent at Lethbridge and Estikom.

Miss Mary Watkins has returned to Lethbridge, after spending a couple of weeks here with the Misses Knapman.

George Skelding, of Macleod, who underwent a critical operation in a Calgary hospital recently, is fast improving.

WANTED—Motion Picture Hall or Theatre to rent or lease. Would also buy equipment. Write Box E, Enterprise.

Mr. and Mrs. F. M. Thompson, accompanied by Mrs. Pinkney, senior, have returned home from a holiday trip to the coast.

When a man is in desperate straits for money, he generally goes out and holds up a train or bank. Women merely hold a bazaar.

The annual congregational meeting of the Central Union Church will be held on Sunday next at the close of the evening service.

WANTED—A man with second-class papers, able to take charge of mine. Apply to J. L. Patton, Lundbreck, Alberta.

Messrs. K. P. Stuart, J. Hutton, D. M. J. Conway and W. J. Bartlett returned on Monday from a few days' fishing on the Upper Livingstone.

Towns along the Macleod to Calgary line are taking a united stand against the increase in gas rates proposed by the Natural Gas Company.

Mrs. S. M. Walker and little daughter, of Calgary, paid a surprise visit to Mr. Walker here last week end. Mr. Walker is district sales agent for the Lethbridge Breweries, Limited.

P. Burns & Co. have applied for right to construct an abattoir at Prince Rupert, to cost in the neighborhood of twenty-five thousand dollars.

Jim Nastasi, of the Blaimore Bakery, has secured the services of a competent baker, who will make a specialty of breads, cakes, pastries, etc., and invites you to give his goods a trial.

Mr. and Mrs. Linville and little daughter have been camped for a week at Snake Creek on the Livingstone and were visited on Sunday last by Mr. and Mrs. E. Hinds and Miss Delma.

The poles for the East Kootenay secondary power line are being erected along the north side of the river. A gang of about seventeen men are camped across the river opposite Sixth Avenue. Rumor has it that this gang will follow up the erection of poles as far as Macleod, and possibly Lethbridge. Towns through The Pass are enjoying excellent electric service from the East Kootenay Power Co., who have sufficient power at their disposal in the Bull River and Elkko plants to electrify the entire district from Cranbrook to Medicine Hat.

The apex of futility: Asking a woman "Why?"

It is said the moon affects both the tied and untied.

"The Dumbells" are coming back to Alberta this fall in a new revue, entitled "Ace High."

Mrs. F. Wright leaves here on August 30th on an extended visit to her old home in England.

FOR RENT—Good basement, 25 by 70 ft., on Victoria Street. Apply to R. Lodde, Blaimore, Alta. A25

Mr. and Mrs. T. J. Murphy and son, Jim, are spending a few days' holiday here with Mr. and Mrs. W. Howe.

A visit to the top of the new coal washer being erected by the West Canadian Collieries Limited, at Blaimore, would prove a lasting experience to one accustomed to staying on the earth. This building is a hundred feet to the top but seems a great deal higher when one is looking back from whence he came. The washer, which is of modern construction, is now nearing completion and will cost in the neighborhood of \$135,000.

WREATHS and SPRAYS artistically arranged and at prices that are moderate. Phone 222, Scott's. We guarantee satisfaction. —Jly 26-27

### FOR SALE OR RENT

The undersigned has purchased a number of cottages. Frank and intends to have some of them moved to lots in Blaimore, while others will be fitted up and rented where they stand. Bids for the purchase or lease are invited.

### HEIRS WANTED

Missing Heirs are being sought throughout the world. Many people are today living in comparative poverty who are really rich, but do not know it. You may be one of them. Write for index Book, "Missing Heirs and Next-of-Kin," containing carefully authenticated lists of missing heirs and unclaimed estates which have been advertised for, here and abroad. The Index of Missing Heirs we offer for sale contains thousands of names which have appeared in American, Canadian, Scotch, Irish, English, Welsh, German, French, Belgian, Swedish, Indian, Colonial, and other newspapers, inserted by lawyers, executors, administrators. Also contains list of English and Irish Courts of Chancery and unclaimed dividends of Bank of England. Your name or your ancestor's may be in the list. Send \$1.00 (one dollar) at once for book.

steam heated; clothes closet and bath.  
Box 2047, Post Office.

DIAMONDS—HEARTS!  
How naturally we couple one with the other. My boy, if yours is a "solitary" affection, cement the union by a SOLITAIRE DIAMOND ENGAGEMENT RING from our always abundant stock of superb jewelry. If you're the "risky" stuff" and she lives to be a hundred, you'll never regret it.

### "OCEANS OF POWER"

THE NEW OVERLAND 91 literally has "Oceans of Power!" The famous OVERLAND Engine as improved in the New 91 develops SEVEN HORSEPOWER MORE than former models, which will take you up and practically over any hill in the Blaimore district without a gear shift. This is only one of several important factors in the "New 91" that has made it "The Most Car in the World for the Money."

Call in and ask for a Demonstration—You will be convinced.

## Strictly Correct Apparel

for men must be made for them individually. Whether civilians or soldiers' The clothes men wear can only be perfectly satisfactory if they are made especially for the men who wear them. We are making overcoats, suits and officer's uniforms, for men who appreciate good tailoring and correct form. We shall be glad to have you call and select the cloth for the new apparel you are in need of.
